

All the original Cricut Joy blades, tools, and accessories are compatible with the Cricut Joy Xtra. That includes the foil transfer tool and the pens and markers, too (yes, including the Joy's watercolor pens). The only thing that's different are the mats and Smart Materials – that said, you can still use all of the smaller Joy Smart Materials, you'll just need to put them on an Xtra-sized mat to cut them.

## Quick Tips!

- Start by doing single layer projects, until you are more comfortable with Cricut Design Space.
- When using Iron On, make sure you MIRROR your image!
- Use light grip mat for light cardstock.
- Use standard grip mat for heavy cardstock, iron on and vinyl.
